

CLAIMS

- [1] An acrylic elastomer composition, which comprises a carboxyl group-containing acrylic elastomer, and a thiazole-based compound.
- [2] An acrylic elastomer composition according to Claim 1, wherein the carboxyl group-containing acrylic elastomer is an aliphatic unsaturated dicarboxylic acid monoalkyl ester-copolymerized acrylic elastomer.
- [3] An acrylic elastomer composition according to Claim 1, wherein 0.05-10 parts by weight of the thiazole-based compound is contained on the basis of 100 parts by weight of the carboxyl group-containing acrylic elastomer.
- [4] An acrylic elastomer composition according to Claim 2, wherein 0.05-10 parts by weight of the thiazole-based compound is contained on the basis of 100 parts by weight of the carboxyl group-containing acrylic elastomer.
- [5] An acrylic elastomer composition according to Claim 1, wherein the thiazole-based compound is used together with an amine-based or phenol-based antioxidant.
- [6] An acrylic elastomer composition according to Claim 2, wherein the thiazole-based compound is used together with an amine-based or phenol-based antioxidant.
- [7] An acrylic elastomer composition according to Claim 1, wherein a polyvalent amine compound is further contained as a vulcanizing agent.
- [8] An acrylic elastomer vulcanization-molded article, vulcanization-molded from an acrylic elastomer composition according to Claim 1.
- [9] An acrylic elastomer vulcanization-molded article, vulcanization-molded from an acrylic elastomer composition according to Claim 7.
- [10] An acrylic elastomer vulcanization-molded article according to

Claim 8, which has parts in a wall thickness of not more than 30mm.

[11] An acrylic elastomer vulcanization-molded article according to
Claim 9, which has parts in a wall thickness of not more than 30mm.

[12] An acrylic elastomer vulcanization-molded article according to
Claim 10, wherein the vulcanization-molded article having parts in a wall
thickness of not more than 30mm is a gasket or O ring.

[13] An acrylic elastomer vulcanization-molded article according to
Claim 11, wherein the vulcanization-molded article having parts in a wall
thickness of not more than 30mm is a gasket or O ring
